---

Thanks Art – I will just call you directly then to avoid the potential issue. Easier! Also, I forgot about time diff so if 1pm your time is better than noon to avoid lunch, that works for me. Talk soon-  
Jennifer

Jennifer,

I don't have any problem talking at noon tomorrow, but I should advise you that my computer connection has not always been working. My connectivity through the FS system is spotty, at best.

I have a Teams meeting tomorrow morning, and another meeting tomorrow afternoon, but I am available at noon for the time you requested.

If for some reason I can't get skype to work, we can talk over the phone as that seems to mostly work.

Jennifer,

I was waiting a couple days before I sent out the timeline, to ensure everyone got it.

I will be asking for a turn around in 45 days, which is a little longer than usual, because everyone is working from home.

I will send out the email latter today regarding this.

There will of course be flexibility, if one of the Agencies feels that this is too short of a review period. I am very flexible on this, especially in our current situation.

Hi Art,  
Jeff sent FSTM2 my way. What is the timeline for comment submission to you? Things are pretty busy right now so want to get it prioritized.

Thanks again-  
Jennifer

Jennifer,

Looks like I also forgot to send this your way as well.

Sorry about that.

Art,

Please find attached the *Draft Feasibility Study Technical Memorandum #2: Development, Screening, and Detailed Analysis of Remedial Alternatives* (FSTM#2) for the Smoky Canyon Mine RI/FS. Due to the COVID-19 stay-at-home order we are unable to produce hard copies of the document at this time, but will provide copies on request after the order is lifted.

Please note that Attachment 2 of Appendix A is too large to email; the attachment is available on the website.

This document can be downloaded at the website:
